The Environment Around Us

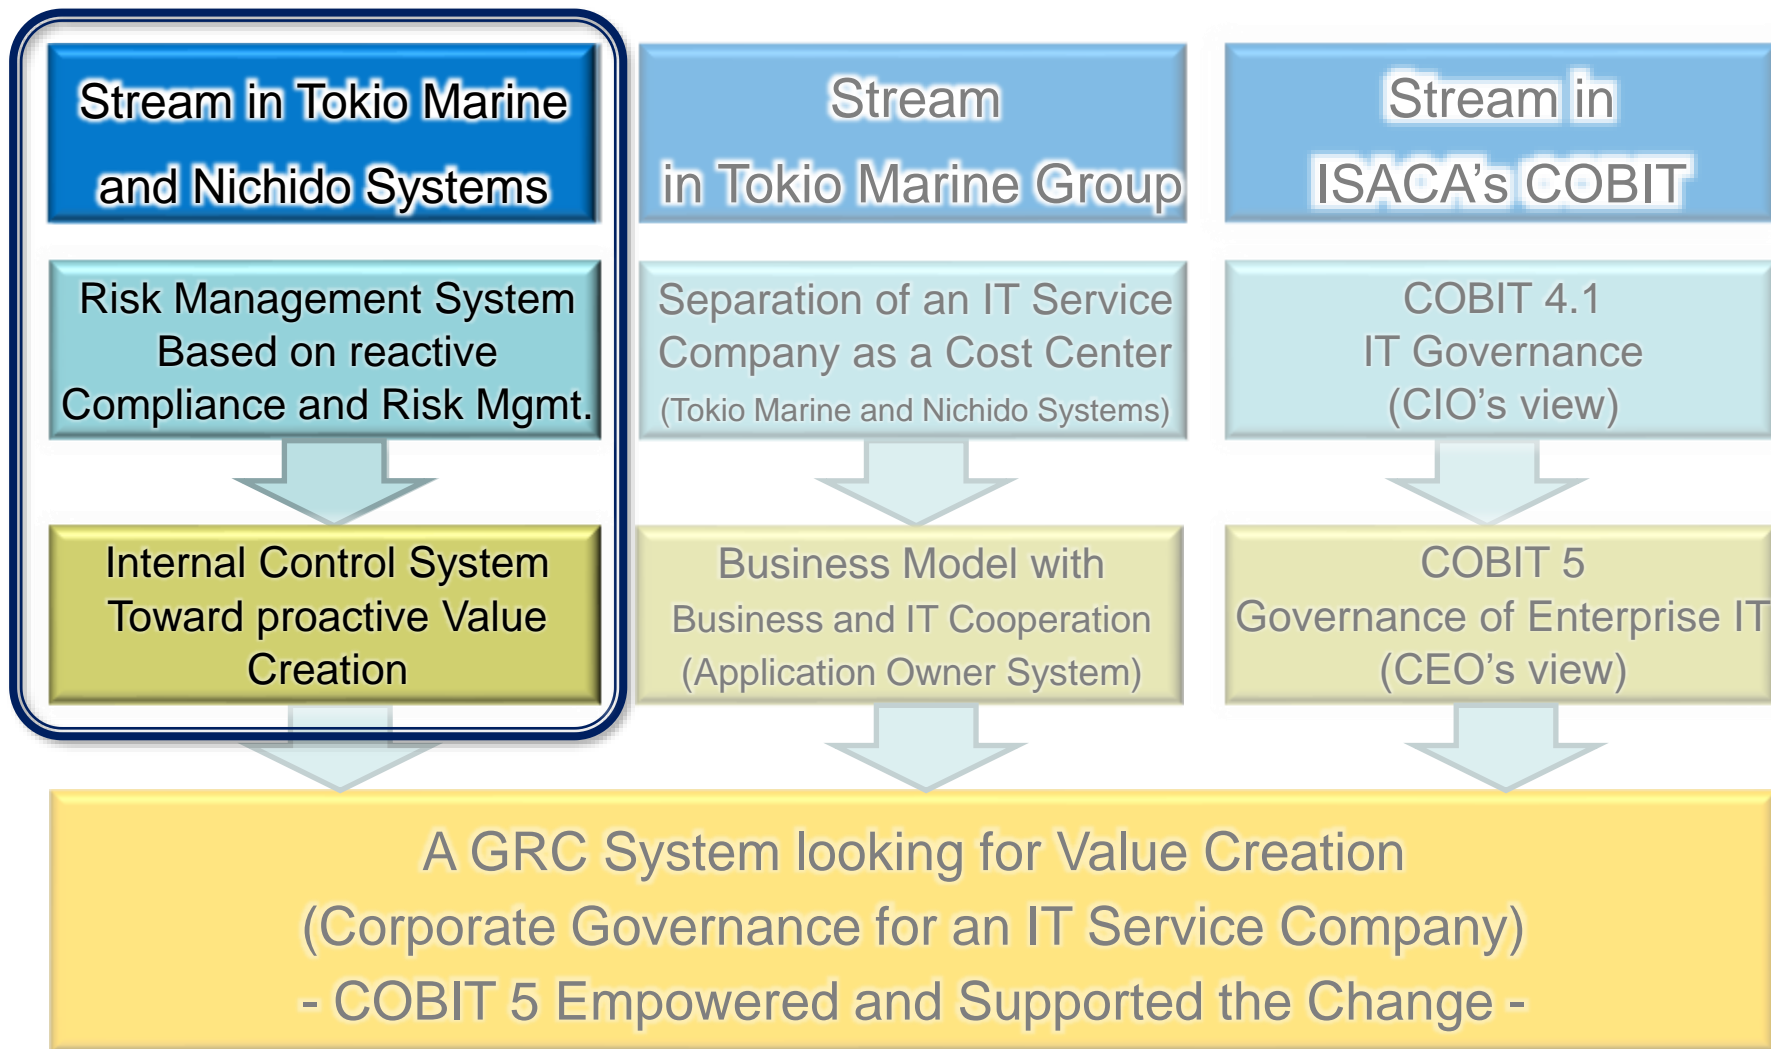

Reactive Compliance & Risk Management

Requirement from the External Stakeholders

Stakeholders	Relations	Reactive Actions
Tokio Marine Group Companies	Customers	<ul style="list-style-type: none">- Comply with IT Service Contract- Support Customer's Compliance and Risk Management
Tokio Marine and Nichido Fire Insurance	Shareholder (Manager)	<ul style="list-style-type: none">- Meet the shareholders expectations (Approvals in advance, Reports)
Tokio Marine Holdings	Holding Company (Group Manager)	<ul style="list-style-type: none">- Comply with Tokio Marine Group Governance (Design and Operate Internal Control System)
Government (FSA, etc.)	Regulators	<ul style="list-style-type: none">- Comply with Laws and Acts- Comply with FSA's Insurance Inspection Manual

Streams toward the GRC system for Value Creation

Reactive Compliance and Risk Management

Corporation Law

FSA Regulation
(Insurance Inspection Manual)

Need to Comply with Tokio Marine
Group's Internal Control System

Need to Support Group Companies'
Compliance and Risk Management

Feel that Internal Control, Compliance and Risk Management are
too Negative

It is Comfortable to do nothing other than Risk Mitigation and
Regulatory Compliance, but ...

Wonder if we have a bright future ???

Towards Proactive Internal Controls for Value Creation

Reactive Internal Control – Uneasiness of Company's future

Share the Emotion and Create Customers' Value Together

Enable to Perform the Business Energetically with Quick Actions

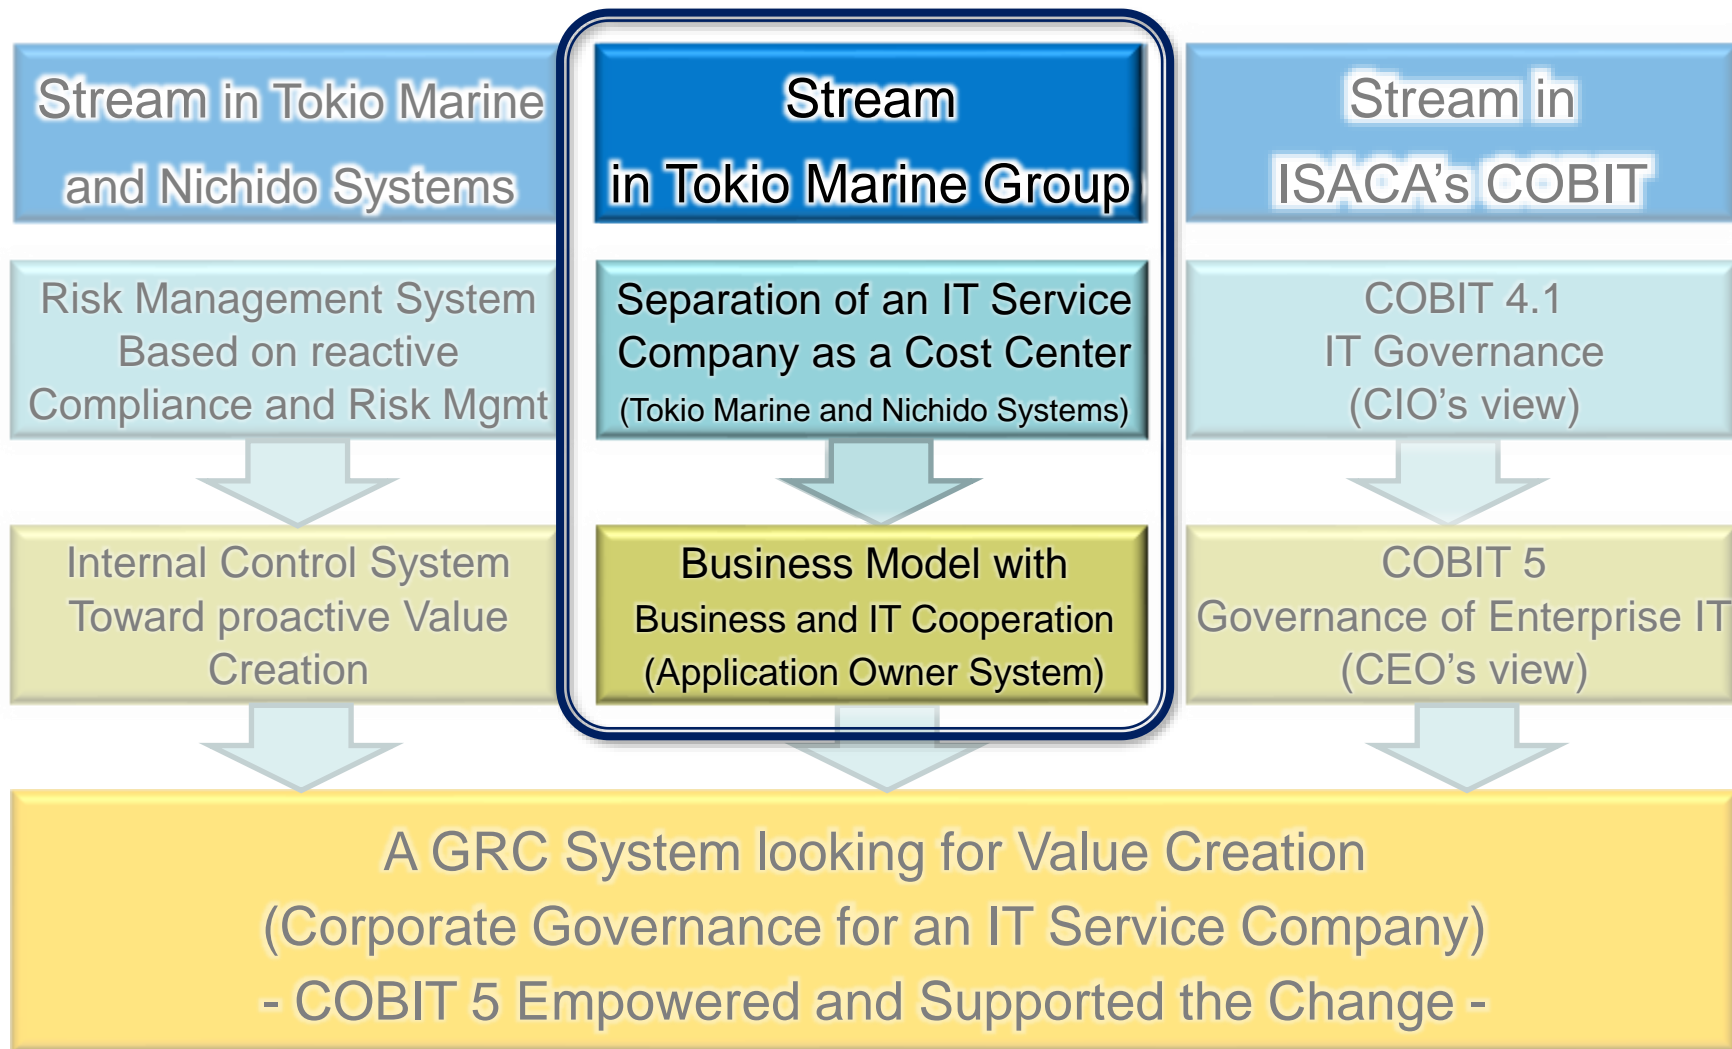

Develop Human Resources and Create Corporate Values

Proactive Internal Controls looking for Value Creation

Streams toward the GRC system for Value Creation

A GRC System looking for Value Creation
(Corporate Governance for an IT Service Company)
- COBIT 5 Empowered and Supported the Change -

Tokio Marine and Nichido Systems Executive Management Desire

Compliance and Risk Management is very Important

But, Those without Challenge will Hurt the Company Future

Missions for a Company should be Value Creation

To do so, Steering by Management is Essential

Tokio Marine and Nichido Systems Executive Management Desire

When Smartphones are emerging in the world,
Management will say ...

Do not use it because it is very
dangerous for information leakage risk

Make Maximum Use of it with
appropriate Risk Controls for Value
Creation

Management Desire to Reality - GRC

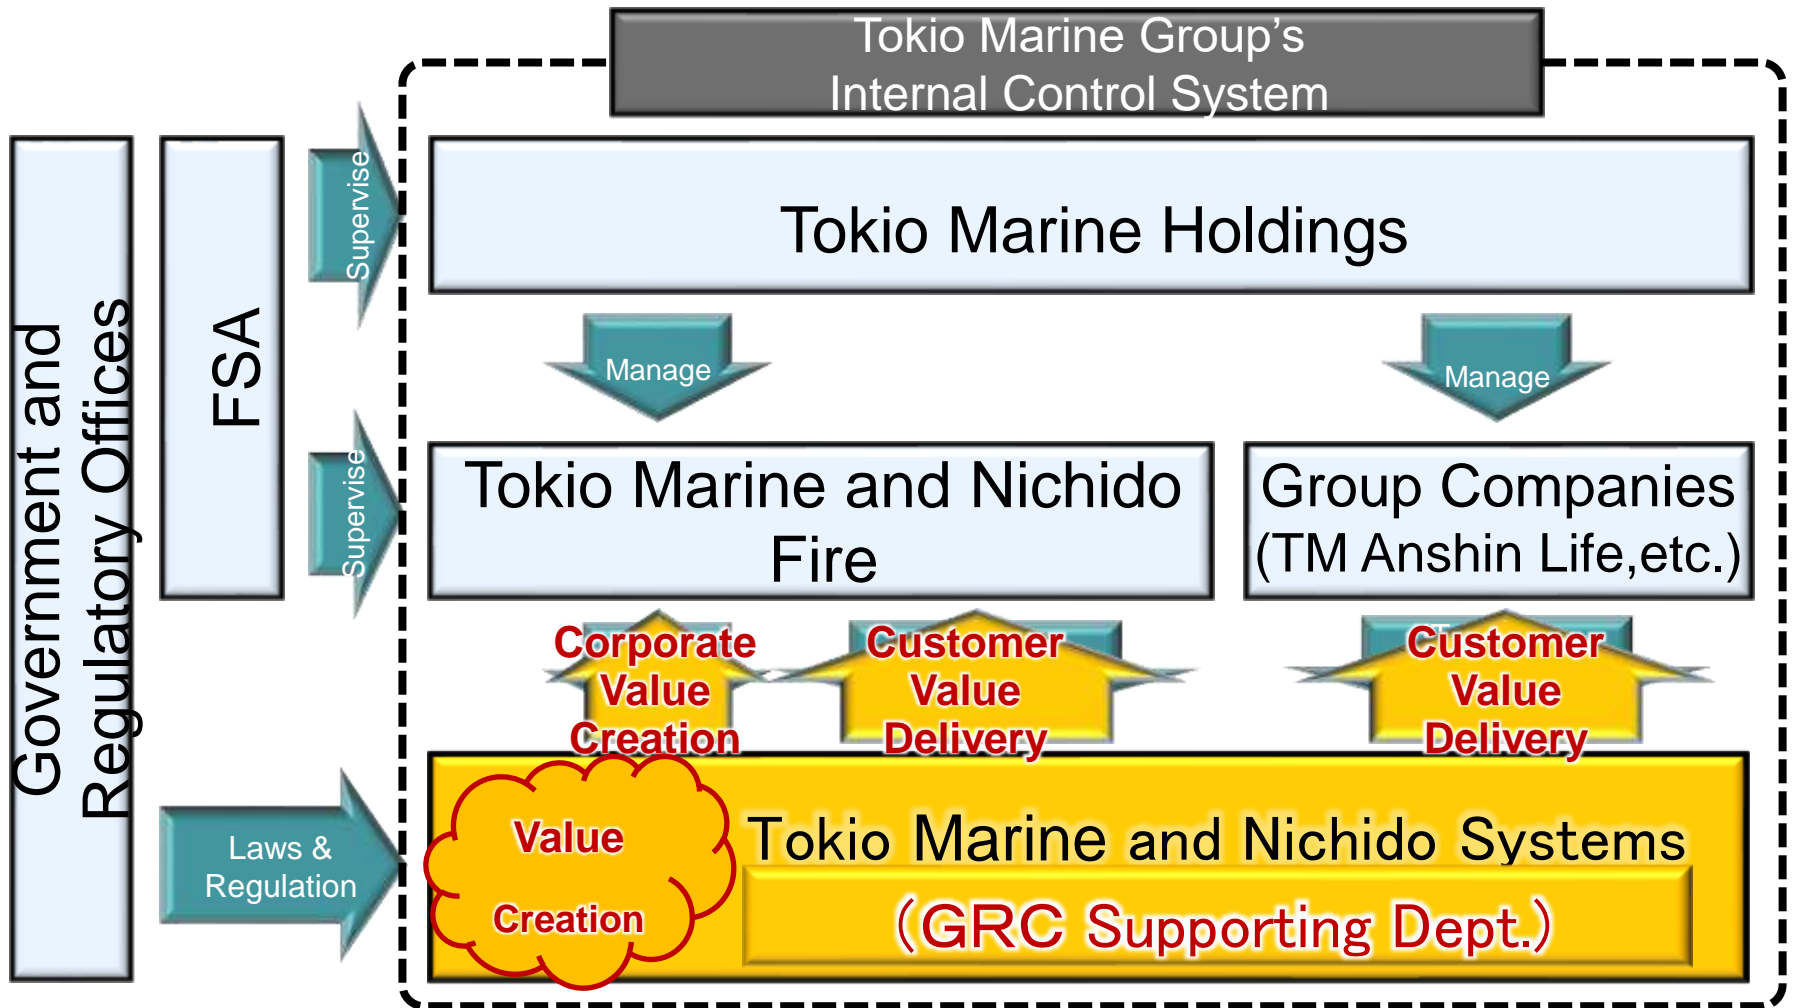

- ✓ Based on the Corporate Concept “We deliver the Technology with our whole heart, Globally,” Management is Steering the Company.
- ✓ We Visualized it by using the term, “GRC”.

(G) Governance Objective:	Create Value
(R) Risk Management Objective:	Optimize Risk
(C) Compliance Objective:	Keep Rules

By using Tokio Marine Group’s Internal Control Framework, “G”, “R” and “C” are handled effectively and efficiently with integrated manner.
